**Summary** — I am a third-year Software Engineering student at the National Engineering School of Carthage. My coursework has given me a strong grasp of key concepts, and working on group projects has helped me develop teamwork, communication, and coordination skills.

## Skills

**Programming Languages:** Java, C++ , TypeScript, JavaScript

**Frameworks & Libraries:** React.js, React Native, Angular, Flutter, Spring Boot, Express.js

**Operating Systems:** Windows, Linux

**DevOps & Tools:** Docker, Jenkins

**Database Technologies:** MySQL, PostgreSQL, MongoDB, Firebase

**Languages:** English, French, Arabic

## Experience

**Papritech Ltd, Manchester**

**June 2024 – august 2024**

*Intern - Mobile App Developer*

- Developed a mobile application using React Native and Firebase, enabling clients to easily search for and book service providers.
- Integrated real-time chat functionality, enhancing communication between clients and providers to streamline the booking process.
- Designed an intuitive interface for service providers to showcase their offerings, helping them attract and retain clients effectively.
- Implemented a community space for users to post and react to each other's posts, fostering engagement and interaction.
- Participated in Agile sprints, contributing to project planning and ensuring timely delivery of milestones.

**Tunisie Telecom**

**July 2023 – august 2023**

*Intern - Frontend Developer*

- Developed a user-friendly web application using Angular for efficient intern management, enabling seamless tracking and oversight of intern activities.
- Created responsive UI components to enhance the user experience, ensuring accessibility and engagement across various devices.
- Designed and implemented a dashboard for managers to view intern progress and performance metrics, streamlining evaluation processes.

## Education

**ENICARTHAGE - National Engineering School of Carthage:**

**2022 - Present**

*Software Engineering*

**IPEIN - Nabeul Preparatory Engineering Institute:**

**2020 - 2022**

*Preparatory Cycle: Maths-Physics*

## Projects

- Developed a university library website using Spring Boot for the backend and Angular for the frontend.
- Created a mobile app with Flutter to help patients find doctors and book appointments.
- Developed an e-learning platform using the MERN stack.
- Configured a Docker log server on an open-source Linux platform to streamline log management

## Certifications

- Responsive Web Design – freeCodeCamp
- Front End Development Libraries – freeCodeCamp
- Build apps with Flutter badge - Google for Developers
- EF SET English Certificate 75/100 (C2 Proficient) - EF Standard English Test (EF SET)

## Campus Life

- IEEE ENICarthage Student Branch – active member
- Microsoft Tech Club ENICarthage – active member
